KAPPA HELMETS → RIDE YOUR LIFE.

THE 2026 EDITION

#RideYourLife

1956

HELMETS RANGE

L'avventura non è una destinazione — è un ritmo che non si spegne mai. Ogni curva, ogni orizzonte, ogni suono del motore diventa parte del viaggio. Costruito per andare oltre, testato per resistere, lo spirito KAPPAMOTO trasforma la distanza in esperienza.

Adventure is not a destination—it's a rhythm that never fades. Every curve, every horizon, every sound of the engine becomes part of the journey. Built to go further, tested to endure, the KAPPAMOTO spirit turns distance into experience.

For 70 years Kappa has been dedicating all its efforts
to improving the lives of bikers.

1956

FLIP-BACK

Libertà su due ruote. Il casco flip-back offre protezione integrale con la versatilità dell'apertura flip-back, progettato per garantire comfort in ogni occasione. L'aerodinamica ottimizzata riduce le turbolenze, mentre i sistemi di blocco sicuri assicurano integrità strutturale anche ad alte velocità. Creato per adattarsi, testato per resistere: lo standard KAPPAMOTO per i motociclisti che richiedono maggiore sicurezza, comfort e versatilità.

Freedom on two wheels. The flip-back helmet delivers full-face protection with open-air versatility, engineered for all-terrain consistency. Optimized aerodynamics reduce turbulence, while secure locking systems ensure structural integrity at speed. Built to adapt, proven to endure: the KAPPAMOTO standard for riders who demand more safety, comfort and versatility.

For 70 years Kappa has been dedicating all its efforts to improving the lives of bikers.

MODULAR

Libertà e precisione, in ogni momento. La configurazione del casco flip-up integra garantisce ergonomia e stabilità rinforzata della mentoniera, progettato per il commuting urbano e per i lunghi itinerari motociclistici. Canali di ventilazione efficienti e profili antirumore consentono al pilota di mantenere la concentrazione sulla strada. Approccio modulare, soluzioni intelligenti — comfort e stile KAPPAMOTO.

Precision that responds to the moment. The flip-up helmet configuration integrates rapid-access ergonomics with reinforced chin-bar stability, engineered for urban transitions and long-distance motorcycle rides. Efficient airflow channels and noise-reduction profiles allow the rider to focus on the road ahead. Modular approach, smart-driven solutions — the KAPPAMOTO mindset, refined.

For 70 years Kappa has been dedicating all its efforts to improving the lives of bikers.

FULL-FACE

Un solo obiettivo: protezione totale. La piattaforma full-face privilegia rigidità della calotta, assorbimento degli impatti ed efficienza aerodinamica per una guida ad alte prestazioni. Ventilazione ingegnerizzata e stabilizzazione interna garantiscono comfort continuo sulle lunghe distanze. L'affidabilità non è un optional — è il core del design KAPPAMOTO.

A single objective: total protection. The full-face helmet platform prioritizes shell rigidity, impact absorption, and aerodynamic discipline for high-performance riding. Engineered ventilation and interior stabilization deliver sustained comfort over distance. Reliability isn't optional — it's the core of KAPPAMOTO's design purpose.

For 70 years Kappa has been dedicating all its efforts
to improving the lives of bikers.

JET

Libertà su due ruote, ingegnerizzata. Con un ampio campo visivo e ingombri ridotti, la configurazione di casco Jet combina leggerezza costruttiva e protezione essenziale per le dinamiche cittadine. Linee aerodinamiche riducono la resistenza, mentre l'ergonomia interna assicura comfort per tutta la giornata. Agile, leggero, sicuro.

Urban freedom, engineered. With an open field of vision and minimized bulk, the Jet helmet configuration combines lightweight construction with essential protection for city dynamics. Streamlined contours reduce drag, while interior ergonomics maintain all-day comfort. Agile, direct, confident — the KAPPAMOTO way through the street.

For 70 years Kappa has been dedicating all its efforts
to improving the lives of bikers.

DEMI-JET

Protezione compatta con stile metropolitano. Il casco Demi-Jet concentra una copertura avvolgente in un ingombro ridotto, ideale per la mobilità a corto raggio. Ventilazione intelligente e imbottiture raffinate consentono un utilizzo prolungato, mentre le linee snelle mantengono l'efficienza aerodinamica. Progettato per integrarsi nel movimento quotidiano — ingegnerizzato da KAPPAMOTO.

Compact protection with metropolitan precision. The Demi-Jet helmet take protection into a smaller footprint, ideal for short-range mobility. Smart ventilation and refined padding enable continuous wear, while sleek lines preserve aerodynamic efficiency. Designed to integrate seamlessly into everyday movement — engineered by KAPPAMOTO.

For 70 years Kappa has been dedicating all its efforts to improving the lives of bikers.
